Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claims 56-134 are pending and subject to restrictions requirement.

Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 56-88, drawn to an isolated strain of *Bifidobacterium* strain UCC 35624 (NCIMB 41003) and to compositions with the strain, classified in class 435, subclass 252.9, for example.
- II. Claims 89-92, drawn to an isolated mutant that is made from strain of *Bifidobacterium* strain UCC 35624 (NCIMB 41003) and to compositions with the strain, classified in class 435, subclass 254, 11, for example.
- III. Claims 93-101 and 103-134, drawn to an isolated strain belonging to the genus of *Bifidobacterium* and having immunomodulatory activity and to compositions with the strain, classified in class 424, subclass 93.45, for example.
- IV. Claim(s) 102, drawn to an isolated strain belonging to the genus of *Bifidobacterium* that is capable of combating effects of inflammatory bowel disease, classified in class 424, subclass 93.45, for example.

The inventions are distinct, each from the other because of the following reasons:

The inventions as claimed are directed to 4 different bacterial products as claimed that are different bacterial strains that are characterized by different features and by different effects as claimed. Strains I and II are two different strains as claimed. Strains II and IV have different effects in different systems as claimed. Strains I and II and Strains III and IV are not

Art Unit: 1651

characterized by the same features and same effects as required by the instant claims. Thus, the claimed products are different with respect to the claimed characteristics.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper. Because these inventions are distinct for the reasons given above and the search required for one group is not required for the other groups, restriction for examination purposes as indicated is proper. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
